CONGRATULATIONS

Dr. Tanya S. Futoryan

for being recognized as a

2023 & 2024 CASTLE CONNOLLY TOP DOCTOR!

As a Top Doctor, you are among an elite group. **Only 7% of all doctors are Castle Connolly Top Doctors** - and the distinction is even more meaningful as you were nominated by your peers.

For over 30 years Castle Connolly has been the most trusted source for patients seeking **best-in-class healthcare providers**. We are proud of our legacy of identifying and recognizing Top Doctors like you who show a long-standing commitment to your patients and to delivering high quality care.

WE BELIEVE IN WHAT MAKES YOU UNIQUELY BEAUTIFUL.

Your skin deserves the best, and we provide it. Experience our innovative approach, customized treatments, as well as a variety of modern cosmetic services at **Westport Dermatology and Laser Center.**

GLOBAL FACE REJUVENATION

When I look at my face, I see tired eyes with dark circles, sagging jowls and freckled skin with sunspots. Why do some of these components of aging bother us more than the others? And why is it better to fix those components at the root of the problem and concurrently? The similarity is in redecorating an older/tired room. If you place a brand new couch and keep the walls, the floors, etc. the same, it will look like an 'old room' with something 'new' that stands out. We must look beyond the problem we see to find the cause of that "tired" look. What has caused that?

As we age, we lose bone and structural support, we also lose fat and soft tissue creating facial contours that can look flat and/or depressed. Our skin is suffering from what's going on underneath plus what we expose it to environmentally.

Dr. Tanya Futoryan believes that cosmetic dermatology is an art as well as a science. To look fresher and younger, all those components must be taken into consideration concurrently and must be treated together. We call this approach Global Facial Rejuvenation which will deliver transformative results restoring a naturally revitalized youthful look.

All products and devices we use are **state-of-the-art** and **FDA approved**. To achieve these results please visit our website for a full list of all the products and devices we offer at **Westport Dermatology and Laser Center.**

GLOBAL FACE REJUVENATION

PATIENT I

Actual Patient

// I love my overall younger look without folds and depressions. My Skin is firmer and facial contours are softer/curved out to reflect more light. Signs of droopy skin are gone. I feel more confident and get compliments on how good I look. //

SCIENCE BEHIND IT: Customized Global Rejuvenation treatment with HA/Hyaluronic Acid and Biostimulatory filler, a series of skin tightening treatments, along with one-to-two laser sessions to improve pigmentation and texture. *Minimal to no down time.

GLOBAL FACE REJUVENATION

PATIENT 2

Actual Patient

// I wanted to improve and soften the deep folds around my mouth and improve the redness on my cheeks due to Rosacea. I'm incredibly happy with my results. I have better cheekbones, softer and less deep folds and a more defined jawline. //

SCIENCE BEHIND IT: Customized Global Rejuvenation treatment with Biostimulatory filler, and vascular laser to treat redness. *Minimal to no down time.

GLOBAL FACE REJUVENATION

PATIENT 3

Actual Patient

// I wanted to look better for myself and in my professional life. I work with clients and want to look my best. Post treatment, my face looks fuller in the right places and overall more youthful. //

SCIENCE BEHIND IT: Customized Global Rejuvenation treatment with HA/Hyaluronic Acid and Biostimulatory filler, along with a series of skin tightening treatments with radio frequency microneedling and a Sofwave™ ultrasound treatment.

*Minimal to no down time.

GLOBAL FACE REJUVENATION

PATIENT 4

Actual Patient

// I wanted to look refreshed, more youthful. I wear my face everyday and want to see the best version of myself. I work and have a busy social life. I also wanted to get rid of my brown spots. Thrilled with my results, can't wait to show them off! //

SCIENCE BEHIND IT: Customized Global Rejuvenation treatment with Biostimulatory filler, one-to-two laser sessions to improve pigmentation and texture, along with a Sofwave™ ultrasound treatment. *Minimal to no down time.

GLOBAL FACE REJUVENATION

PATIENT 5

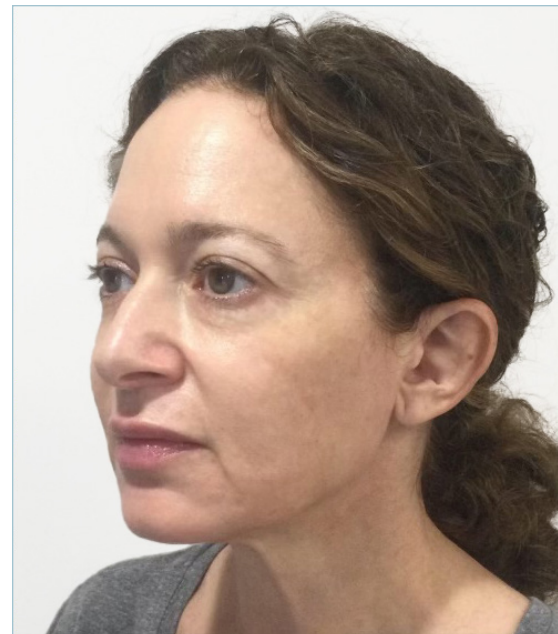

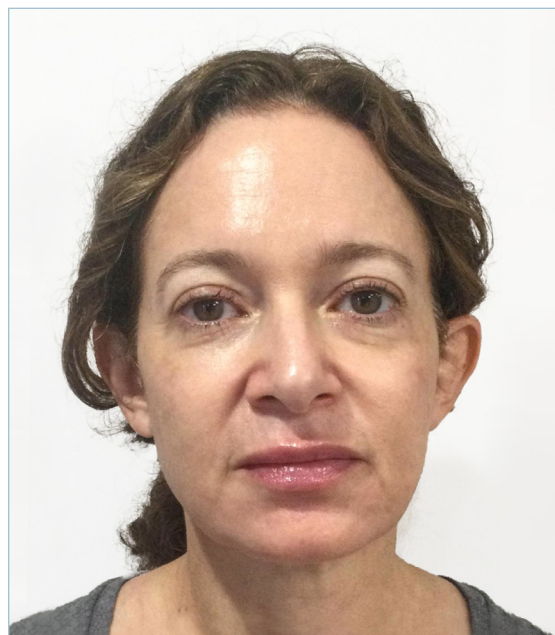

Actual Patient

// I wanted to improve my under-eye dark circles and address my droopy jawline. //

SCIENCE BEHIND IT: Customized Global Rejuvenation treatment with HA/Hyaluronic Acid and Biostimulatory filler, one-to-two laser sessions to improve pigmentation and texture. *Minimal to no down time.

GLOBAL FACE REJUVENATION

PATIENT 6

Actual Patient

“ I was concerned with deep folds around my mouth, drooping jowls and under-eye darkness. ”

SCIENCE BEHIND IT: Customized Global Rejuvenation treatment with HA/Hyaluronic Acid and Biostimulatory filler, one-to-two laser sessions to improve pigmentation and texture, along with a series of skin tightening treatments. *Minimal to no down time.

GLOBAL FACE REJUVENATION

PATIENT 7

Actual Patient

// I wanted to improve my heavy eyelids and address my sagging jawline. //

SCIENCE BEHIND IT: Customized Global Rejuvenation treatment with HA/Hyaluronic Acid and Biostimulatory filler, a series of skin tightening treatments, along with one-to-two laser sessions to improve pigmentation and texture. *Minimal to no down time.

GLOBAL FACE REJUVENATION

PATIENT 8

Actual Patient

// I wanted a more sculpted jawline, and overall smoother face. //

SCIENCE BEHIND IT: Customized Global Rejuvenation treatment with HA/Hyaluronic Acid and Biostimulatory filler.

LIP REJUVENATION

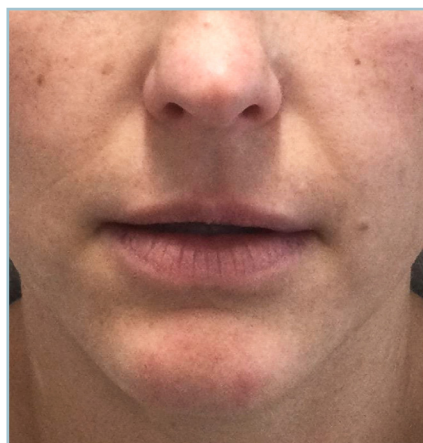

PATIENT 1

// I love my softer, younger looking lips without the fine lines above my lips. They are so pretty! //

PATIENT 2

// I've always had thin lips and didn't know anything could be done to make them fuller and match my face. I was excited to learn my lips could be reshaped and made a little bigger. Love the way they look! //

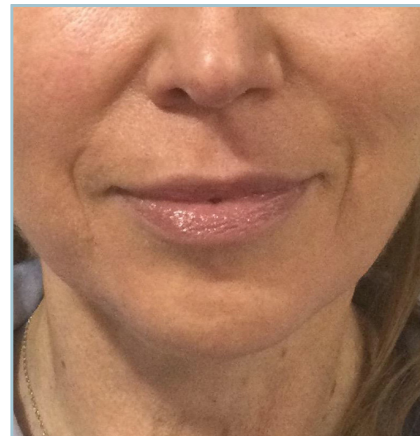

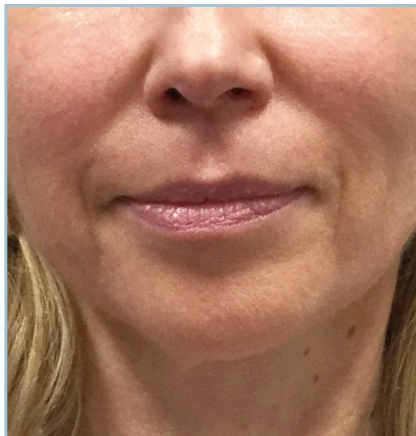

PATIENT 3

// I couldn't be happier with my results! They're noticeable, yet subtle. I'm excited to find someone who listens to what I want. I'm in LOVE with my new pout! //

LIP REJUVENATION

PATIENT 4

// I've never done lip filler before, why did I wait so long? The customized treatment gave me symmetry and a bit of fullness which I'm incredibly happy with. Just the enhancement I was looking for. //

PATIENT 5

// I wanted my lips a little bigger and fuller but not duck shaped or obviously done. That's what I got after I explained my needs. //

PATIENT 6

// My lips looked thin and wrinkled especially in the winter. I wanted younger, pinker lips without wrinkles. I did the lip treatment and now they look hydrated from inside with better color and curvature. Lip gloss is all I need now. //

LASER REJUVENATION

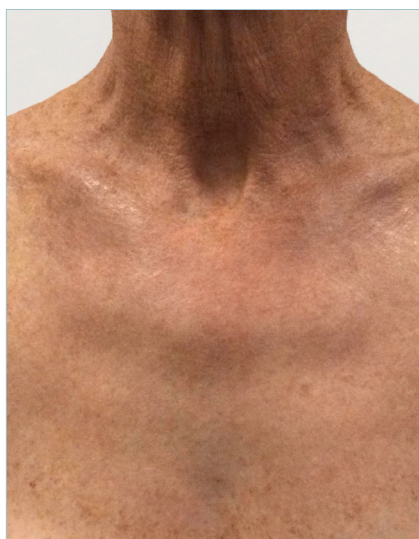

PATIENT 1

Correction of moderate sun damage with non-ablative, fractional laser with minimal to no down time.

PATIENT 2

Correction of dark age spots and sun damage with non-ablative, fractional laser with minimal to no down time.

PATIENT 3

Correction of moderate to severe sun damage and freckling with non-ablative, fractional laser with minimal to no down time.

NEUROMUSCULAR CORRECTION

BOTOX, XEOMIN, DYSPORT, JEUVEAU

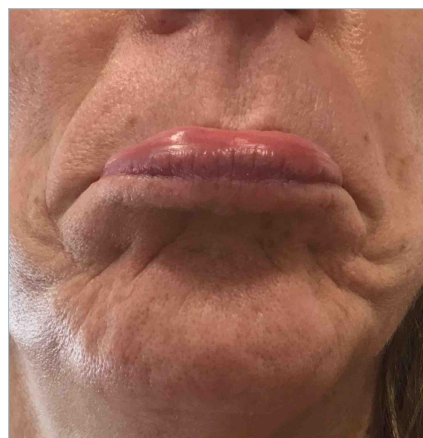

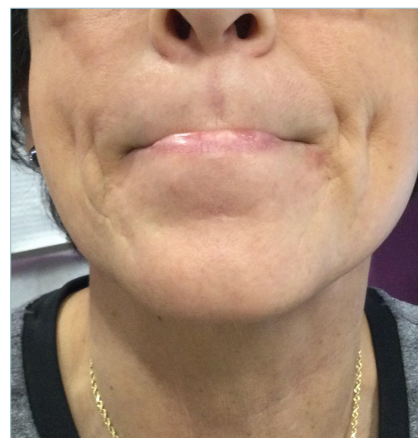

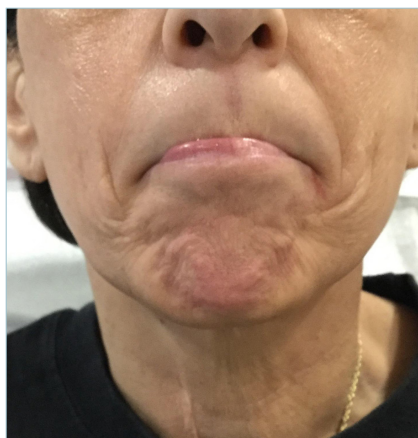

PATIENT 1

Lower face correction of moderate chin dimpling.

PATIENT 2

Lower face correction to relax and smooth prominent chin dimpling.

PATIENT 3

Lower face correction to relax and smooth prominent chin dimpling.

WHAT PATIENTS ARE SAYING ABOUT US

“ Dr. Futoryan and the staff at Westport Dermatology are fantastic. She is a genius with a needle. She really listens and doesn't try to push treatments. Each patient has a treatment plan that is specified to their issues and needs. I always have a natural, beautiful outcome after every treatment. I recently moved here from Los Angeles and used to have treatments in Beverly Hills. Dr. Futoryan beats them all! ”

“ My transformation over the years from seeing Dr Futoryan and the staff at Westport Dermatology has been remarkable. The practice was recommended by a close friend and I am ever grateful to that friend for sharing this practice with me. Over time I have had Botox, fillers, microneedling and skin tightening treatments. I am thrilled with the results. Dr Futoryan has a measured and natural approach to the treatments she recommends and executes. Everything is done with careful consideration and results are documented. Dr. Futoryan's skill and that of her staff, the professional care I have received and the amazing anti-aging cosmetic results I have seen are why I am so loyal to this practice. ”

“ I've been seeing Dr Tanya Frutoryan for seven years for all of my skincare needs including Botox, Sculptra and Microneedling. I trust her, as I know she's highly skilled. She listens and most importantly I get the natural, but effective, results I hope for! I wouldn't even think of going to anyone else. She is a superior cosmetic dermatologist! Also, the staff is awesome; friendly, very helpful and knowledgeable! Cindy at the front desk is a gem!!! ”

“ Dr. Futoryan is an expert in Botox injections and all cosmetic dermatology. Do not risk seeing anyone but a medical doctor for these treatments. They are medical treatments and cannot be done properly by a “medi spa”. I have done Sculptra, Botox, Sofwave, microneedling and Thermage. I look fantastic thanks to Dr.Futoryan and her professional staff. ”

“ When I saw my before and after photos of my skin, I could not believe Dr. Futoryan and her staff achieved such excellent results in just four months. My skin tone, pores, and wrinkles have drastically changed. No one has ever commented on my skin, and now people out of know where are giving me compliments on my skin. She does not have a one-size-fits-all approach but individualizes treatment to achieve the best results. I have never felt that a product or service they suggest is because it was a “money maker,” and I respected that. Her products far surpassed any other I have ever used and will continue as a delighted patient of this practice. ”

“ Dr. Futoryan is truly the best cosmetic dermatologist. I've had maintenance botox and fillers, as well as many laser treatments, & all of this has contributed to me looking so much younger than I am. People actually don't believe my age, & I attribute it totally to Dr. Futoryan. She has a unique & expert way of placing all products. Her sense of aesthetics is unparalleled. She can do almost anything, & she really cares about giving you the look you want. I most recently had a lip enhancement, & I will continue to do this. It is subtle, no one would EVER know, yet my lips look symmetrical and fit my face much better than before. No duck lips with her! In fact, everything she does is so natural looking, yet definitely has a large impact in a positive way on your appearance. Her staff is so nice & professional too. I highly recommend Dr. Futoryan! ”

“ I Have been a patient of Dr. Futoryan for seven years or so. I rely on her for medical care, as well as cosmetic procedures. She is a wonderful doctor and a true expert in achieving natural results (she really listens). I have done Botox, Sculptra, Lasers and Microneedling and have been very happy with all. I highly recommend her! ”

“ Dr. Tanya Futoryan of Westport Dermatology and Laser Center is the needle whisperer! I had been looking for someone in the area that could deliver “natural looking” Botox results and she exceeded my expectations. Not only is she conservative, but also very generous. If you're looking for a natural refresh and reboot I highly recommend Dr. Futoryan and her very professional and courteous staff! ”

“ Dr. Futoryan and her professional staff are everything you could hope for and rarely find in a health care provider. On my first visit, for an unrelated matter, Dr. Futoryan spotted a basal cell carcinoma on my face, although the dermatologist with whom I had been regularly treating, completely missed it. After having her visual diagnosis confirmed by a biopsy, she then arranged for me to see the best Mohs specialist in the state. Her concern and attentiveness before and after the surgery were extraordinary. More recently, during a routine body skin check, she correctly identified (and subsequently removed) a melanoma, that to anyone else would have looked like a small freckle. Her medical skills are amazing, and she is supported by staff, all of whom are competent, professional, and caring. In addition to purely medical procedures, Dr. Futoryan is excellent when it comes to cosmetic/elective procedures. She is both detail oriented and reassuring, carefully explaining before, during and after the procedure, exactly what the patient should expect. Dr. Futoryan treats each of her patients with extraordinary skill and sensitivity. She's the best. ”

“ Wonderful experience with botox. Dr. Futoryan really knows how to make you look natural, but still make you look young and refreshed. The office staff is super lovely and helpful. Nothing but a great experience from getting me in right away in a cancellation to every appointment since including the two-week follow up to check to make sure I was happy. Do yourself a favor and book! ”

“ Dr. Futoryan is such an amazing Dermatologist! She has injected my forehead and crows feet area with Botox, Dysport and Xeomin. I am so happy with my results I have visited many others that gave me these injections and she is the literally the only Dr that has given me the perfect amount I needed and it looks amazing! I am getting more compliments from her injectables than anywhere else I've been. She also has the most comfortable lasers in which she has addressed my sun damage, face and leg vessels and hair removal needs. I'm so happy to have found her! ”

“ I am new to Westport and always need to prioritize finding a good dermatologist practice for both medical (chronic eczema) and cosmetic (botox). This practice has it ALL. Can't recommend more. Dr. Levy gave me cutting edge solutions to my eczema that I had never heard before -- which is rare (& exciting) after a lifetime of dealing with this issue, hearing the same thing over and over from other doctors. And Dr. Futoryan gave me that *perfect* botox -- no wrinkles, but not frozen! Just the right amount to open up my eyes, and make me look fresh. Will be going back to see both of them! ”

Customized Skincare Regimen by Tanya Futoryan MD

The ultimate roadmap to healthy, beautiful skin.

Dr. Futoryan's private label line of Healthy Skin by MD skincare offers products with pharmaceutical grade active ingredients to repair visible signs of aging, treat acne and rosacea, correct uneven pigmentation, and reverse signs of sun damage.

Products contain pharmaceutical grade antioxidants, retinoids, growth factors, natural botanical lighteners, and vitamins necessary for skin's optimal function and health. All products are hypoallergenic, and most are non-comedogenic.

We welcome you to visit our skincare store and receive a complimentary skin evaluation from our specialist who will recommend the appropriate products and together design the most effective personalized treatment plan for you.

We are pleased to also offer skincare products by SkinCeuticals, SkinBetter Science, U.SK, Neocutis, iS Clinical, AlphaLash.
